

## 01 Features

- Wireless control with modes of fruiting, vegetation and seeding
- Balance full spectrum of blue, yellow and red light from 300nm, 400nm, 730 nm.
- UV spectrum for Physical Control Techniques for Plant Diseases
- Standard lamp medium base

## 02 Spec

| SPEC                     | Value  |
|--------------------------|--|
| Input                    | 120/230V   |
| Power                    | 45W – full spectrum<br>65W – with UV, sterilization                                      |
| PPF( $\mu\text{mol/s}$ ) | 45 W – 120, for 400W equivalence<br>65W – 220, for 650W equivalence                      |
| PPE( $\mu\text{mol/J}$ ) | 2.5  |
| Material                 | Aluminum + plastic + silicon glue  |
| Spectrum                 | Fruiting 630-680nm, Vegetation (full spectrum)<br>Seeding ( 400-500 nm), UVB (280-320nm) |
| Control                  | APP/ Controller  |
| Lifetime                 | 15,000 hrs   |
| Product Size             | 118 * 204 mm   |

## 03 Application
